EDUCATION

Azusa Pacific University **Expected Graduation: December 2026**

Bachelor of Science in Nursing

3.8 GPA

EXPERIENCE

Nursing research Intern - Azusa Pacific Unviersity **May 2026 - Present**

- Investigating whether therapeutic communication and touch reduce caregiver compassion fatigue and strengthen caregiver & resident relationships, assisting with data collection, participant tracking, and research documentation.

Huntington Hospital - Pasadena, CA | 132 Clinical Hours **August - December 2026**

Student Nurse

- Swan-Ganz catheter monitoring, cardiac output/index, hemodynamic trends, shock states, and vasoactive medications.
- Performed focused cardiac, neurologic, respiratory, and perfusion assessments on ICU and ED patients.

Children's Hospital Los Angeles - Los Angeles, CA | 90 Clinical Hours **March - April 2026**

Student Nurse

- Rotated through PICU, BMT, CV acute, and med-surg units; performed pediatric assessments

Kaiser Permanente Mental Health Center - Los Angeles, CA | 90 Clinical Hours **August - November 2025**

Student Nurse

- Utilized therapeutic communication techniques (active listening, open-ended questions) to establish rapport and provide psychosocial support for patients with acute psychiatric disorders.
- Conducted comprehensive Mental Status Exams (MSE) and safety assessments, consistently monitoring affect, mood, and potential risks for self-harm.

Second Affiliated Hospital of Zhejiang University - Hangzhou, China | 132 Clinical Hours **January - April 2025**

Student Nurse

- Rotated through 3 Cardiology units (CVICU, telemetry, OR), gaining exposure to hemodynamic monitoring ECG/telemetry interpretation, cardiovascular assessment, and chest tube monitoring.
- Observed open-heart surgical repair of an aortic dissection involving aortic graft reconstruction and valve replacement.
- Followed the cardiac care continuum across 3 phases: admission and medical management, operative treatment, and postoperative recovery.
- Provided direct care in the Emergency Department to high-acuity patients with strokes, burns, traumatic brain injuries, and acute cardiac conditions.

City of Hope - Duarte, CA | 110 Clinical Hours

Student Nurse **August - December 2024**

- Cared for patients receiving cancer treatment while monitoring for infection, bleeding, nausea, fatigue, pain, and nutritional concerns
- Safely assisted with ambulation, transfers, repositioning, and fall prevention for oncology patients
- Followed chemo and neutropenic precautions, reinforcing strict infection control and patient safety

Huntington Hospital - Pasadena, CA | 110 Clinical Hours **January - April 2024**

Student Nurse

- Developed foundational Med-Surg skills in patient assessment, ADLs, mobility, blood sugar checks, infection prevention, medication safety, and patient education under RN supervision.

SKILLS & INTERESTS

Certifications & Systems
